

Board of Trade Held
Meeting Yesterday

Various Matters of Public Interest Discussed at Yesterday's Session at Grand Union

Action was decided on yesterday by Board of Trade members to clear the emergency landing field two miles west of town, on the Godfrey farm, and a committee was appointed with J. H. Boulton in charge to organize a party for this purpose, of which an advertisement appears in this issue.

President H. T. Halliwell reported on the conference he had with forestry department and aviation officials, and asked for the co-operation of the board and citizens in clearing the ground. A motion was passed that this be undertaken next Wednesday afternoon, on the regular half holiday. Mr. Whiteside and Mr. Kellock have promised the loan of trucks to help in removing the surface stones, and the members stated they would assist.

Mr. Whiteside, as chairman of the Parks committee, gave a resume of the negotiations to date, and stated that details had been supplied to the provincial parks commission with a view to developing the site at Crow's Nest Lake. A letter written by Hon. Peter Heenan, Federal minister of Labor, relative to seasonal employment in the mines of the Crow's Nest Pass region, was discussed, in which he suggested a conference of mine operators, C.P.R. and provincial government officials, and miners' union officials, to find if the coal orders could be more evenly distributed throughout the year, and thus provide longer periods of employment to the resident miners.

Mr. Kellock and Mr. Whiteside, of McGillivray and International companies, stated that efforts had been made during the past five years to solve this annual problem, and the companies were just as keen as the miners and other interests in securing steadier operation of the mines. H. T. Halliwell stated that the reason he brought this before the meeting was that all lines of business were vitally interested and that the boards of trade in the Pass towns were the mouthpieces of the business men and retailers.

A letter from Pincher Creek asking Coleman board to endorse their application to the Dominion Parks Board for an increased annual appropriation for Waterton Lakes Park was approved on motion of H. C. McBurney. G. Kellock added a rider that the help of Pincher and other boards of trade should be obtained in the effort of Coleman board to have a provincial park established at Crow's Nest Lake. J. H. Boulton stated that tourist traffic to-day demands something better than tent accommodation, and a modern tourist camp would require cabins with light and water conveniences.

Bills passed for payment were Geo. Graham for painting of banner for Coleman band, used at Calgary stampede, amount \$12.50, and Coleman Hardware Co. for material \$2.00. The meeting adjourned at 2:40.

All members and business men are kindly requested to pay their membership fee to Secretary W. L. Rippon, Bank of Commerce, amount \$2.00, for which ticket will be issued.

Three lads were tried before Magistrate Gresham in the local police court this week on a charge of theft. Two were given suspended sentence and one dismissed.

The places entered were the summer cottage of Dr. Olivia at Crow's Nest Lake, by three of the boys, and a house in town by one lad. The property stolen was returned, and restitution made for that which was missing.

Magistrate Gresham, in imposing suspended sentence on the offenders, stated his reasons, namely, that he did not wish to send them to jail among adult criminals, and there was no reformatory school in the province to which he could commit them. He gave strict instructions to the parents to see that they were home by 9 p.m. every evening, except permission was given to remain out later. He strictly admonished them to tread the straight and narrow path, as a careful record would be kept of their actions.

The father of one boy was required to furnish a bond of \$500 and two bonds of \$500 each were posted by two business men for the other.

The prosecution of the cases was conducted by Sergeant Jones, Alberta Provincial Police, who, following investigations, recovered articles stolen from the cottage at the lake, and Constable Houghton recovered the money and articles stolen from the house in town.

The charges were reduced by the police from breaking and entering, which carries a 14 year sentence, to common theft.

Mine Rescue and First Aid Competitions

On Saturday, Sept. 28, three first aid and two mine rescue teams from Coleman will compete in the competitions to be held at Blairmore. These competitions excite a great deal of interest among mining men, and many weeks are spent in preparation and training.

Full particulars may be obtained from large posters displayed in the stores. The day's program is to close with a smoking concert in the evening.

Ball Team Won Cup

Coleman baseball team trimmed Fernie all-stars on Sunday by a score of 21-8, and brought back a cash prize of \$150 and the Chevrolet cup, the latter donated by Crow's Nest Pass Motors. Coleman went up strong on pitchers, Simpson, Dickin and another player wearing down the opposition. Bill Gate caught for Coleman.

Many supporters went up with the team, in fact, some said it looked as if half of Coleman was there.

V. A. Bowes, assistant district passenger agent, C.P.R., was in town over night on Monday.

IN MEMORIAM

In loving memory of Ida Matilda Burns, who died on Sept. 20, 1928.

The Golden Gates were opened
A gentle voice said "Come."
And with farewell unspoken
She sweetly entered home.

Ever remembered by her husband and daughter, William J. Burns and Dorothy.

Radio Service at St. Alban's
Next Sunday

The conclusion of the session of the provincial synod of Rupert-land will be marked by a radio service at the Arena, Calgary, on Sunday, which will be broadcast by radio, and at which the address will be given by the Lord Bishop of Winchester, England.

Through the kindness of Mr. Brown, a radio set will be installed in St. Alban's, and the musical prelude to the service will commence at 7 p.m., the service proper at 7:30 p.m. An invitation is extended to all who have not the opportunity of hearing the service in their homes, to come to the church, where it is anticipated the service will be heard as clearly as if sitting in the Calgary auditorium.

Cranbrook Won Alberta Association Shield

Coleman Tennis Club players were defeated at Fernie on Sunday by members of Cranbrook Club, by nine matches to two. The games were for the Alberta Lawn Tennis Association Shield, which has been held by Cranbrook for the past three years. Members from Coleman tennis club playing were Mr. and Mrs. John McLeod, Mr. and Mrs. L. Lindor, Mrs. A. E. Graham, Miss Dorothy Burns, M. McCallum, W. Fraser, John McDonald and R. F. Barnes. The clubs concerned greatly appreciate the courtesy of the Fernie Club in lending their courts for the games.

As a result of these games, Cranbrook retains the shield for another year. Coleman won the eastern district competitions held during the summer, and Cranbrook the western district, and Sunday's games were to decide the championship for the entire Crow's Nest Pass district.

Etiquette for Tennis Spectators

Broadened public interest in tennis matches in the United States is not proving an altogether unmixed delight to the club managements. Increased paid attendance is bringing welcome support to the game, but a new type of spectator is coming, too, with the result that the time-honored decorum of a tennis match is a bit upset. In place of the polite pattering of palms that hitherto has greeted a good lit of volleying or a smart return of a difficult service, criticism of players' faults is openly and rather loudly being voiced from the spectators' seats at Chestnut Hill, Mass., at Forest Hills, L. I., and at other scenes of play for tennis championships.

From the baseball park, apparently, has this new type of spectator come. There open derision of players' errors has long been the custom as well as handclapping and even cheering for their home runs, their difficult catches and their clever put-outs. So disturbing is the new note among tennis spectators, however, that the authorities in charge of the current championship matches at Forest Hills have prepared what might be called an Etiquette for Tennis Match Spectators.

Good manners are a distinct element of the game of tennis, both among players and spectators. Decidedly out of order is anything but silence when a player makes a slip. Booing has no place in a sport in which it is the custom for winner and loser at the end of a hard-fought contest to exchange a friendly handshake. — Christian Science Monitor.

John Bell, quilting champion, is to be honored by a smoking concert and presentation in the K. of P. hall on Friday evening.

Has a Winning Streak

Supt. John McLeod recently won the Green Cup in the club competition of the Crow's Nest Pass Golf and Country Club. This cup was donated by Mr. Raoul Green for annual competition, and a very interesting and keen series of games resulted in Mr. McLeod winning it. In addition to being a good golfer, he also distinguished himself by winning the McGillivray Cup in the club competition of the Coleman Tennis Club.

Fernie Votes on Airport

By a vote of over three to one Fernie ratepayers sanctioned the money laylaw to borrow \$10,000 as an initial fund for the establishment of an airport.

Auto Fatality on
Sunday Near Burnis

Car Travelling at High Speed Somersaults and Fatally Injured Mrs. William Allin of Vancouver

The speed demon claimed another victim on Sunday on the highway near Burnis. Mr. William Allin, wife and daughter, of Vancouver, were proceeding to Calgary, intending to reach there by nightfall, when their car, a Franklin six, apparently skidded in the loose gravel, and somersaulted twice, landing on its wheels. Mrs. (Continued on Page Eight)

Help Wanted

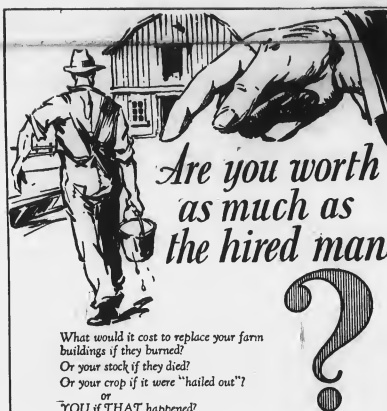

Volunteers Wanted

To help clear the emergency landing field west of town. The Board of Trade members have agreed to undertake this work on

Wednesday Afternoon, Sept. 25

Forest Ranger Boulton will be in charge. Trucks have been loaned by International and McGillivray companies and the work will take about two hours.

This is a community enterprise. It requires a little personal effort by the citizens. If you will give your services for a couple of hours next Wednesday, be on hand at the Grand Union Hotel at 2 p.m., and leave your name prior to that date with the Secretary of the Board, W. L. Rippon, at the Bank of Commerce, or with Forest Ranger Boulton, or at The Journal Office.

Are you worth as much as the hired man?

What would it cost to replace your farm buildings if they burned?
Or your stock if they died?
Or your crop if it were "hatted out"?
YOU if THAT happened?

YOU are more valuable than buildings, implements, stock and crops put together. What is your REPLACEMENT VALUE?

You pay your farm helper from \$50 to \$100 a month—and board.

Are you worth that much?

You can take out a life assurance policy to provide \$30.00, \$75.00, \$100.00 a month or more in case of your death.

This will provide the wage of a hired man at least, and enable your family to hold on to the farm.

See the Sun Life man. He has a policy for every need.

The Progress of Little Things

In these modern days when it is “the thing” to boast about the bigness of this and that, and when countries and cities lay claim to the possession of the biggest of something or other, we are apt to forget how many of these “big” things were brought about, and to lose sight of the essential fact that anything “big” is in reality only a collection or combination of many very small things.

Nowadays not so much stress is laid upon old sayings of a couple of generations ago, such, for example, as “Mighty oaks from little acorns grow!” nor do we stop to contemplate that this globe on which we live is after all made up of “little drops of water, little grains of sand.”

It would be better for everyone of us if we gave greater heed and attached their real importance to the little things of everyday life. The wealth of the multimillionaire is, after all, only an unusually large accumulation of pennies, and some of the very rich men of the world laid the foundation of their wealth by careful saving of their pennies. The hundreds of millions of bushels of Marquis wheat harvested in Canada every year is the result of one little kernel developed by Dr. Saunders.

The investment of a very few dollars by the parents of a baby at the time of its birth, if left to accumulate at compound interest throughout the years of its minority, would mean a very substantial sum of money upon which to commence a career in the world by the time the child became of age.

These thoughts come to us when reading a recent article about Trinity Church, in New York City. This church, which stands at the head of Wall Street, the centre of New York's financial district, began its career 233 years ago on a precious income derived from the fisheries and dead whales cast up by the sea along the shore where one of the world's largest cities now stands. Today Trinity Church Corporation is one of the largest holders of real estate in that city, owning \$15,000,000 of revenue producing real estate, bringing into the church coffers almost \$1,500,000 a year. Nor do these large figures include the value of the property upon which Trinity Church itself stands, the equivalent of about two square blocks in the heart of the financial district, and conservatively valued at another \$15,000,000.

The tremendous wealth of Trinity, we read in the Wall Street Journal, would appear fantastic to the organizers of this church in 1696, when King William III. made the original grant of land to the parish, supplemented nine years later by a further grant from Queen Anne. In those days the land was of no particular value, Wall Street was non-existent, and Fifth Avenue not even a foot path. But Manhattan Island was destined for great wealth, and the worthless property of a little over 200 years ago is worth many millions today.

Historical records contain efforts to obtain funds to start the church, which appear incredible when contrasted with present day values. One aid to the building of the original church in 1696 was a patent issued by the Governor of New York. It permitted vesseymen to seize all drift whales, or anything else driven by the sea onto land, and for which there was no owner. It further directed that the whales be towed ashore, tried, and proceeds used for a building fund.

The lesson of this interesting bit of history is this: Today there are thousands of young people just starting out in life. They have little or nothing. With them it is indeed a day of little things, and as they look around them and see so many huge undertakings, great enterprises, and the speed of the modern world, they are inclined to be discouraged, and become obsessed with the false idea that there is no opportunity for them.

But opportunities exist today as never before. There are a thousand threads where there was but one two hundred years ago. The beginning must be small now, as it was then, but the opportunity is there just the same, while the possibilities and probabilities of growth are many times more rapid now.

Tackle the small thing at once; save the small things, the pennies; watch for and embrace your opportunities; conserve those things which come to you. The bigger things, and the rewards of work and of service to your fellowmen will follow in due course.

Supreme In Circus World

John Ringling Purchases Five Of His Foremost Competitors

John Ringling, who started as a singing clown, rules as supreme ring master of the circus world today.

By purchase of five of his foremost competitors, involving several million dollars, the last of the Ringling Brothers has acquired control of the largest group of tent shows in the world, including their talent, menageries, equipment and winter quarters.

The shows which have been added to the Ringling group are: Sells-Floto, Hagenback Wallace Animal Show, Sparks, John Robinson's and the Al G. Barnes Wild Animal show.

“Excuse me,” said the impatient man at the table to the manager, “but did the waiter who took my order leave any wife or family?”

You seldom find the name of the fellow who thinks he's “it” in Who's Who.

Boils

Dry up boils with Minard's. It's antiseptic, kills the poison and draws out inflammation.

Alberta Calves For Dakota

Alberta's Flying Rancher Receives Order From North Dakota State University

George Ross, southern Alberta's flying rancher, has received an order from North Dakota state university for 1,000 calves to be distributed by the university to boys' and girls' baby beef clubs throughout the state as part of a movement to encourage more and better livestock production.

The calves will be delivered during October, and after distribution will be fed up during the winter for spring stock shows in North Dakota.

It Will Prevent Ulcerated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were particularly subject to quinsy have thus made themselves immune to attack.

Gratifying Progress In Tree Planting

The 1928 reports of inspectors of the tree plantations made on prairie farms with trees furnished by the Forest Service of the Department of the Interior, indicate a gratifying progress. Indian Head and Sutherland, Saskatchewan, show that 83 per cent. of the plantations inspected were found to be in very good condition, 14 per cent. were fair, and only 3 per cent. were in poor condition.

There are five types of United States currency: silver certificates, gold certificates, federal reserve notes, national bank notes, and U.S. notes.

Story Of Privation

Tragic Case Of Two Boys Lost In Woods Of Northern Quebec

How 12-year-old Michael Courtols remained for nearly two months beside the body of his brother, René, 18, dead from hunger and privation in the woods, and how the two of them had wandered for miles, famished and helpless, was described at Roberval, Quebec, at the inquest into the death of René Courtols, found dead in the woods of northern Quebec, after having been missing since August, 1928.

Roots, berries and fish bones furnished slender means of livelihood for a time, young Michael told the coroner's jury. They were four hungry and fifty miles from Roberval, the nearest outpost of civilization. Having but two matches, they kept a fire burning in a pall for two months. When the search party found them, the fire was still smoldering but René Courtols was dead.

Michael had almost completely lost his reason when rescued, but it is now completely restored, though he is a physical wreck.

The boys were lost when their father left them at his cabin while he undertook a hunting trip. They wandered from the camp. The coroner's jury returned a verdict, “death by starvation and misery.”

FEELING WORN OUT

When the Blood Becomes Watery a Breakdown Follows

How many girls and women suffer from headaches, pain in the back or side, poor appetite, nervousness and a constant feeling of weariness and pallor, the case of Mrs. Williams' Pink Pills. Of course, all these symptoms may not be present in any one case, but any one then who has that blood has become thin and watery, and good health can only be regained by enriching the blood. This should be done without delay. For this purpose nothing else acts so promptly and so surely as Dr. Williams' Pink Pills. Every dose helps to enrich the blood and tone weak nerves and thus brings good health and vitality to weak, and often despondent people. The truth of these statements is proved by the case of Mrs. Howard King, R.R. 5, Trum, N.S., who says: “A couple of years ago I grew so weak I could scarcely walk across a room without help. My blood was thin and I was almost breathless. I had taken Dr. Williams' Pink Pills on a former occasion with good results, and so I decided to try them again. By the time I had taken a few boxes I felt much better, but I continued taking the pills for several months, by which time I could walk for miles with little effort. I do all my own housework and care for four children, so you will see that Dr. Williams' Pink Pills have done for me.”

You can get these pills through any medicine dealer or by mail post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Surprised At Development

Lord Queensborough Impressed With Mining Possibilities Here

Completing a tour of Canada, Lord Queensborough, chairman of the London advisory board of Canadian Securities, Limited, stated in Toronto that he was much impressed with the mineral developments going forward in the Dominion. “I had no idea,” he said, “of the immense mineral wealth of Canada until I went through northern Ontario, Manitoba and British Columbia.”

Lord Queensborough declared his report on investment opportunities in the Dominion undoubtedly would be favorable.

Rub It In For Lame Back. A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Firebrick and Fireclay Products

Firebrick and fireclay shapes are produced, both from domestic and imported clays, in Nova Scotia, Quebec, Ontario, Saskatchewan, Alberta, and British Columbia. Refractory silica bricks are also produced in Nova Scotia and Ontario.

Minard's Liniment—Used for 50 years.

There is a Manchester sexton who believes in accuracy, as witness this entry: “Died... male; aged three months; unmarried.” Which leaves no possible room for doubt.

Relief Of Unemployment

Manitoba To Provide Public Works

\$725,000 construction program to be carried out in Manitoba during the coming winter was announced by Premier John Bracken, as a means of relieving the unemployment situation. At the same time, action was taken to have the Dominion Government and cities and towns in the province follow a similar course with respect to any undertakings they might have in view.

The work to be done will include construction of a new unit at the Selkirk Mental Hospital, at a cost of \$225,000; building of the first section of the trans-Canada highway east from Whitecourt towards the Ontario boundary, at a cost of \$200,000; and completion of the new provincial jail near Headingly, at a cost of \$300,000. Appropriations for the work were passed by the legislature at its last session.

Highway To The North

Siefansom Favours Road From The Pas To Northern Points

Returning from a trip to Churchill, Dr. V. Stefansom, famous explorer, declared he stood ready to give all he could in the attempt to have a highway connecting The Pas and northern points with the roads of the continent.

Enlisting himself as an advocate of a highway to the north, the famous explorer declared that it would be “another step in the opening of the north, a logical advance of civilization into the new northern empire and another blow to the old prejudice that the north is disagreeable and worthless.” He declared that a road to northern country would “add ten-fold to Western Canada's attractions as a tourist haven.”

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Millar's Worm Powders, by destroying the worms, correct the faults of the digestion and serve to restore the organs to healthy action.

Commissioner Of Lands

J. W. Martin Is Appointed To Position In Federal Department

J. W. Martin has been appointed commissioner of Dominion Lands, in the Department of the Interior, succeeding the late J. W. Greenway. Mr. Martin has been acting commissioner since Mr. Greenway died about a year ago.

Mr. Martin, who was born in Goderich in 1879, has been in the department many years. He was secretary to the commissioner who negotiated treaty No. 8 with the Indians of the Peace River district. In 1903 he was Dominion Lands agent at Lethbridge; in 1907, assistant inspector of Dominion lands at Medicine Hat; 1910, inspector of land agencies, Calgary; 1927, acting superintendent at Edmonton. He came to Ottawa as assistant to Mr. Greenway in 1928.

Wife! (to returning hubby)—And you dare look me in the face?

He—Syes, dear! (hic), you see one gets-used to most (hic) anything.

Halley's comet has a record dating back to 240 B.C., and its visitations spread alarm and consternation throughout Europe during the Middle Ages.

Japan produces more feature motion pictures than any other country according to the U.S. Department of Commerce.

Mrs. Speaks—And must our country start with her arms folded and her hands in her pockets?

Kill that corn with Minard's Liniment.

Ontario Research Foundation

Saskatoon Professor Will Go To Toronto To Engage In Research Work

Dr. Seymour Hadwen, research professor of animal diseases at the University of Saskatchewan, will leave Saskatoon for Toronto shortly for the Ontario Research Foundation as director of veterinary science.

This foundation is subscribed to jointly by a number of commercial firms in Ontario, and the Ontario Government. The chairman is Sir Joseph Flavelle.

Dr. Hadwen, who has been in charge of the veterinary research at Saskatoon since the laboratory for this purpose was opened, comes from Manchester, England. His research work on the effect of sunlight on white animals and the susceptibility of white cattle to attacks by parasites have attracted attention among scientific men and stock breeders. He has also made interesting discoveries with regard to the cause and method of the change of colour of the fur of wild animals in winter.

Amputation Association

Annual Convention Attended By 300 Delegates Is Held In Montreal

From all parts of Canada, 300 delegates to the eighth annual convention of the Amputations Association of the Great War, gathered at the Mount Royal Hotel, in Montreal, recently. Sir Arthur Currie received the members individually.

The Dominion officers are: A. E. Lambert, Ont., president; A. Palmer, British Columbia, first vice-president; H. Gendron, Quebec, second vice-president; and A. Sutcliffe, Ont., secretary-treasurer. Executive—W. D. Davies, Alberta; E. A. Baker, Ontario; A. Blain, Saskatchewan; C. J. Ryan, Ontario; T. B. Chettle, Manitoba; R. Myers, Ontario.

A. L. Schlesinger, representing the disabled U.S. veterans of the World War, spoke of the common bond of suffering which united disabled men on both sides of the boundary line.

Prospecting Activity In West

Over 20,000 Mineral Claims Recorded In Manitoba and Northern Saskatchewan

Some idea of the amount of prospecting being done in Manitoba and northern Saskatchewan may be obtained from the number of claims staked and recorded during the past year. In 1928 there were 20,000 mineral claims recorded in the Pas mining district, 1,400 in the Cold Lake district, and 2,118 in the Winnipeg district. There are at present over 20,000 mineral claims recorded in Manitoba and northern Saskatchewan.

Population Of Australia

Commonwealth Statisticians Show Increase During The Past Year

The population of Australia at December 31 last, was 6,336,786, an increase during the year of 1928, of 101,832, according to figures compiled by the Commonwealth statisticians. The corresponding estimate for New Zealand was 1,466,902, showing an increase of 15,862.

The state of New South Wales has a population of 2,455,280; Victoria state 1,760,689; Queensland, 916,689; South Australia 579,348; Western Australia, 405,873; Tasmania, 216,563.

The population of the six capital cities of Australia now totals 3,013,248.

Asthma Is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know however, from experience, how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Millions Spent On Hotel Buildings

To provide additional accommodation for visitors to Canada, new hotels just completed, or in course of erection in different cities of Canada represent a total cost of over \$32,000,000.

KITCHENER TONSILLITIS CO., Kitchener, Ont.

ISLAND COLONY FOR DOUKHOBORS IS NOW PROPOSED

Victoria. — Fanatical Doukhobors from all over Western Canada, including those who have been making trouble in interior British Columbia, will be placed in a proposed colony, probably on Darcy Island, in the Gulf of Georgia, between the mainland of British Columbia and Vancouver Island, if the Federal Government accepts plans laid before it by the Provincial Government.

The scheme, it was revealed, has been placed before Hon. J. H. King, Federal Minister of Health. He will discuss the matter with his colleagues on his return to Ottawa.

The proposal that Doukhobors who refuse to obey Canadian laws be removed to a colony by themselves, where they will have no contact with law-abiding members of their sect, is advanced by the Provincial Government in the belief that the whole Doukhobor problem is a Federal issue. The Doukhobors, it is explained, were brought here under contract by the Federal Government.

As Doukhobor colonies exist in Alberta and Saskatchewan, as well as in British Columbia, no single Provincial Government, it is pointed out, can adequately deal with them.

Darcy Island is suggested as a suitable place for the proposed colony, because it is isolated and escape from it is almost impossible.

The Provincial authorities feel that the fanatical members of the Russian sect should not be placed permanently in a penitentiary. Some less stringent form of imprisonment, it is thought, is desirable. On Darcy Island or some similar place they would be allowed comparative liberty, and would be able to engage in agriculture. After being there for a time it is hoped they would agree to embrace Canadian customs.

Find Lost Aviator

Rescued In Northern Manitoba After Wandering In Bush For 16 Days

The Pas, Man.—After wandering 16 days in the wilds of northern Manitoba, during which time an intense search by air and land was made for him, C. F. Mews, young aviator, was discovered by V. Partridge, airman, some 30 miles west of Oxford House, just when searchers had virtually abandoned hope of finding him.

Mews is little the worse for his experience. He is somewhat thin and haggard, having lived principally on berries, which are plentiful in the north this season, and he expressed confidence that he could have made his way to Oxford House had not Partridge picked him up. His clothes were in tatters as a result of scrambling through the thick brush.

The youthful flier, who is a pilot for the Northern Aerial Mineral Exploration Company, was lost on August 24, when forced to land near Kneek Lake owing to lack of fuel. He remained with his machine for two days, hoping that his companions would be able to spot him from the air and come to his assistance.

When aid did not arrive, Mews decided to set out on foot. He had no gun as the crew flies from the place where he landed. The bush, however, is very thick throughout the territory and the country is dotted with lakes, making travel by foot extremely hard. It is estimated that he walked over a hundred miles in attempting to reach his goal.

Meantime planes were sent out to hunt for him and Indian trackers took up his trail, being guided by occasional foot-prints and plucked berry bushes. When Mews was found the Indians were only 12 miles behind him, and probably would have found him in two days' time if he had not been seen from the air.

Heads Grain Exchange

Winnipeg.—William A. Murphy, vice-president of the Reliance Grain Company, Limited, was elected president of the Winnipeg Grain Exchange, succeeding James A. Crowe who retired. Mr. Murphy was elected by acclamation. A. F. White, of the firm of Clark and Martin, and Ernest S. Parker, were elected vice-presidents.

Alberta Wheat Pool

Calgary, Alberta.—The Alberta Wheat Pool now owns 430 elevators spread over the length and breadth of the province. This is an increase of 135 over the number operated last year. The Pool now has facilities to handle approximately 90 per cent. of all Pool wheat.

W. N. U. 1803

Makes Important Discovery

Young Scientist Starts American Chemical Society With Demonstration

Minneapolis.—The splitting of a supposedly indivisible element, hydrogen gas, in two substances, was demonstrated to the American Chemical Society here.

It was called the "greatest scientific discovery of 1929," by Dr. Hugh S. Taylor, of Princeton University, chairman of the session.

Dr. R. F. Bothofoffer, a young German, who was a 17-year-old infantryman in the front-line trenches at the close of the world war, is the discoverer.

Dramatically he set his proof before the eyes of the chemists in a spot of light upon the wall of a University of Minnesota lecture room. Like a moving finger it wrote the forecast of a revolution in physical chemistry. This revolution was described enthusiastically by Dr. Taylor.

"It opens the way to finding an entirely new species of molecule. It is the first proof of something forecast mathematically by the new wave mechanics. It means that our texts on physical chemistry will have to be re-written."

The discovery has no present commercial use, but the new world in chemistry it seems to open is very important.

Forecast Dominion Election

Hon. Robt. Forke Says Elections May Be Held Within a Year

Winnipeg.—Within 15 months—and probably within a year—a Dominion election will be held, was the forecast of Hon. Robert Forke, Minister of Immigration, speaking before the Winnipeg Liberal Association here. The Dominion minister declared that the Liberal party would make gains in the Maritimes. Manitoba, he said, would be the keystone province.

"Why pay people to come to this country?" asked Mr. Forke. "Canada is a good enough country for people to come to of their own volition."

The matter of assisted passages required very serious consideration, the minister commenting that he intended to cut some of the assisted immigration afforded in the past.

No immigrant who paid his own passage has been deported, Mr. Forke pointed out, but all discontented immigrants sent back to Britain have come out under the assisted passage plan. "I still believe there is room for everybody in Canada, but we want them to come here only when we can absorb them," he declared.

Jury Makes Recommendation

Unable To Establish Origin Of Fatal Winnipeg Fire

Winnipeg.—Stating that it was unable to definitely establish the origin of the fire that destroyed Medway Court on September 1, with the loss of nine lives and more or less serious injuries to 10 persons a coroner's jury which has investigated the disaster has expressed the opinion that the building was not adequately equipped with means of escape in case of fire.

The jury recommends that proper authorities forthwith have a thorough investigation made of all buildings of three storeys or more used as residences by three experts, including the fire chief, to secure their unbiased opinions and make recommendations for more adequate protection when necessary of occupants in case of fire.

Yukon Parcel Post

Service To Be Suspended During the Winter Months

Calgary.—Parcel post to the Yukon will be suspended during the season of closed navigation on the Yukon River, which extends approximately from October 1 to May 21.

During this period mail addressed to the Yukon will not be accepted unless directed to Champagne, Carcross and White Horse.

Permission to convey such mail as is offered by the public for carriage via air service from Prince George, B.C., to the Ingenika River area in Northern British Columbia, has been granted to the Western Canada Airways of Winnipeg.

Special stickers will be sold by the company in payment of the special charge for air carriage.

Steamship Disaster

Helsingfors, Finland.—The number of persons missing in the Kuru steamer disaster in the Gulf of Bothnia is 120, while an unofficial estimate is 145. Only 45 bodies have been recovered.

Doukhobors Sent To Jail

Fifty-Nine Members Of Sons Of Freedom Act Sentenced

Regina. — Ninety-six Doukhobors, men, women and children, self-styled Sons of Freedom, have been sent to Prince Albert. Of this number, 59 have been sentenced to serve six months in jail, while the remainder, consisting of 37 juveniles, 20 boys and 17 girls, will be handed over to the children's welfare bureau at Prince Albert.

Thirty-four women who disobeyed two miles east of Mikado on the highway, pleaded guilty of charges of indecent exposure. Two women and 23 men were convicted on a vagrancy charge, while no charge was laid against the juveniles.

Soviets To Stay Out

Will Not Participate In Plans For An Economic United Europe

London, Eng.—An Exchange Telegraph dispatch from Riga states that the Russian foreign commissariat had declared the Soviet Union did not intend to participate in plans formulated at Geneva for an "economic united states of Europe."

The dispatch said the Soviet opposition "tending to estrange Europe from America" and desires to remain neutral in the forthcoming economic struggle between the two continents.

STATE CONTROL SUGGESTED FOR BROADCASTING

Ottawa. — Radio-broadcasting in Canada should be controlled and operated by a government-owned company. That is the effect of the chief recommendation of the royal commission which presented a report to Hon. P. J. Caudin, minister of marine and fisheries.

The company would have some similar relations to the Dominion Government as the Canadian National Railways has, but would be distinct from that organization. It would have 12 members, three representing more particularly the Dominion Government, and one representing each of the provincial governments. The members of the commission were Sir John Aird, Toronto, chairman; Charles A. Bowman, Ottawa, and Dr. Augustin Prigion, Montreal.

The recommendations provide that the task of supplying the programs would fall upon the provincial representatives of the company.

The present owners of broadcasting stations would be reasonably recompensed when their plants were taken over or dismantled. The expenditure necessary for the operation and maintenance of the service should be met by license fees, rental of time on stations for programs employing indirect advertising and a subsidy from the Dominion Government.

High-power stations should be erected across Canada. As a nucleus to the publicly-owned service, seven 50,000-watt stations should be provided to give a good reception over the entire settled portions of the Dominion.

In making public the report, Mr. Caudin said he was well satisfied with the commissioners and their work.

The report will be submitted first to the technical officers of the department. Later it will go before the cabinet. To put the recommendations into effect would necessitate important legislation.

IN AIRPLANE CRASH

Lady Mary Heath, noted English aviatrix, was seriously injured in an airplane crash at Cleveland. Her condition is reported as favorable.

Saskatchewan By-Elections

Dates Have Been Set For October 7 and 14

Regina, Sask.—Fixing of the dates of eight by-elections made necessary by the elevation of certain private members of the Saskatchewan Legislature to cabinet positions, calling of the first regular session of the legislature by the new government shortly after the first of next year, and decision to hold a provincial-wide Liberal convention next spring, are the three developments of the political situation in Saskatchewan.

Premier J. T. M. Anderson announcing during the day the dates of the by-elections, stated the regular session of the legislature would not likely be called until after the first of the year. George Spence, in charge of the organization department of the Saskatchewan Liberal Association, made the announcement of the intention to hold a provincial-wide convention in the late winter or early spring.

The dates of the by-elections are as follows: Regina, Moose Jaw, Saskatoon and Lumsden, nominations on September 30, elections on October 7. Tisdale, Moosemin and Yorkton, nomination on October 7, elections on October 14.

Dress Reform Movement

Combination Trousers and Skirt Suggested For Universal Use

London, Eng.—The dress reform movement broke into the congress of the World League for sex reform on a scientific basis when a combination of trousers and skirt was suggested for universal use.

Dr. J. C. Lugel, of England, addressing the delegates of 11 countries, said that men possibly would adopt skirts and women trousers in the future, or more likely there will be a uniform combination for both sexes. He urged creation of a new mode of dress which would incorporate the advantages for both.

MacDonald May Sail On 28th

New York.—In a special cable from London to the New York Times, the London Daily Express is quoted as saying that Premier Ramsay MacDonald has definitely decided to sail for the United States on September 28.

Study Wheat Prices

Washington.—Investigation of the disparity between Canadian wheat prices and the prices of wheat in the Northwestern States, together with a study of the whole subject of grain storage facilities, has been initiated by the Federal Farm Board.

Send Message To His Majesty

Business Men Meeting In Edmonton Send a Message Of Greeting

Edmonton.—A message of greeting from the 300 business men from all provinces, and representatives of five of the leading chambers of commerce of Great Britain, together with members of the Mother of Parliaments, was sent to King George at the opening of the fourth annual convention of the Canadian Chamber of Commerce, signed by the president, William Birks, conveyed to His Majesty the rejoicing of the coition over the improvement in his health.

Messages of greeting from the Governor-General; Rt. Hon. Ramsay MacDonald, prime minister of Great Britain; Rt. Hon. W. L. Mackenzie King, prime minister of Canada; Lord Passfield, secretary of state for the dominions; Lord Iveagh, president of the Federation of Chambers of Commerce of the British Empire, and from the premiers of various Canadian provinces, were read.

"It is the very earnest and confident hope of myself and of all my colleagues that the remarkable progress of Canada may continue at a rapid rate; and that the free, happy and the mutually advantageous association which unites her with Great Britain may be strengthened," said the prime minister of Great Britain in his message.

International Balloon Race

Ten Entries For the Gordon Bennett

St. Louis, Mo.—Ten balloons, representing the United States, France, Germany, Belgium, Denmark and the Argentine, will soar away from St. Louis, September 28, in quest of the international Gordon Bennett trophy. It will be the eighth of the international balloon races and the third to start from St. Louis. Seven of the races have been won by the United States, and five by Belgium, which gained permanent possession of the original Gordon Bennett trophy with its third straight victory in 1924.

The United States became permanent possessor of the second trophy with victories in 1926, '27 and '28. Now the third of the Gordon Bennett trophies is up, with three U. S. airmen seeking to gain the first leg on it.

LABOR PARTY WINS APPROVAL OF THE PEOPLE

London, Eng.—With Communist entanglements completely severed, the Labor party conferred opening in Brighton, at the end of the month is expected to devote the bulk of its attention to overdue reforms with the object of bringing the party constitution into line with modern necessities.

An executive's report proclaimed that the Labor Government has seized the people's imagination. Events are being shaped with a vigor and spirit that is refreshing, it says, after the inertia of the past four years.

Answering the Liberal demand for electoral reform, the report says its clamor never was heard when the Labor party was struggling for existence.

The affiliated membership of the party dropped from 3,294,000, in 1927, to 2,077,000 last year, largely due, the report says, to difficulties arising from the Trade Union Act which compelled civil service organizations to discontinue affiliation, while in many instances new machinery for securing the contracting of party supporters had not yet been established.

Premier's Western Trip

Depends Largely On Plans Of Ramsay MacDonald

Ottawa, Ont.—The western trip of Premier Mackenzie King this fall depends a good deal on the plans of Premier Ramsay MacDonald, of Great Britain. Premier King stated that if Premier MacDonald visited Washington, he (Mr. MacDonald) would come to Ottawa at the conclusion of that visit. If the British prime minister came to Ottawa, Mr. King said he wanted to be here to receive him and discuss certain matters of interest to Canada and Great Britain. He expects that if Mr. MacDonald crosses the ocean it will be about the end of this month, or early in October. Mr. King will not go to Washington. He regards Mr. MacDonald as a man of great ability, and the great war so little had been done to remove the weapons of war.

ANGLO-AMERICAN NAVAL ACCORD EXPECTED SOON

London, Eng.—Official announcement that Premier Ramsay MacDonald would sail on September 28, for the United States, to visit President Hoover, was hailed here as definite evidence that the two governments had virtually reached an agreement upon naval disarmament.

Well-informed circles indicated that a question involving three cruisers of the eight-inch class is the only point upon which full accord has not been reached.

The developments came swiftly after a conference between Mr. MacDonald and Charles G. Dawes, United States ambassador in London, to this conference, announcement had been made that the United States' answer to the latest British proposals had been received in London. It was assumed that General Dawes carried this answer to No. 10 Downing Street, when he called on the Premier.

The two were closeted for an hour. The official date for Mr. MacDonald's sailing was announced immediately after the ambassador had departed. It was just such "conversations" as that which have marked the discussions since the ambassador dined with the Premier. The official date for Mr. MacDonald's sailing was announced immediately after the ambassador had departed. It was just such "conversations" as that which have marked the discussions since the ambassador dined with the Premier.

Maintain Palestine Mandate

Great Britain Will Not Depart From Present Policy

London, Eng.—Lord Passfield, Secretary of State for the Colonies, informed a deputation of Jews representing the Jewish Agency and the Zionists, that there could be "no question of the British Government's giving up the mandate for Palestine, or departing from the policy embodied in the Balfour Declaration of establishing in Palestine a national home for the Jewish people."

The Palestine-Arab executive in a note issued by its chairman denied rumors prevalent among Moslems in northern Palestine to the effect that Jews had damaged the mosque of Omar by bombing attacks. The police called upon all Arabs to keep the peace.

Forty-Two Bushels Per Acre

Saskatoon.—The best wheat yield reported from northeast and central Saskatchewan is that of Henry Wicket, Roseburg, a farmer, on a 200-acre field of Marquis wheat he threshed 42 bushels per acre. It graded No. 1 hard. Mr. Wicket has 1,000 acres of wheat which is running from 35 to 40 bushels to the acre and is all grading No. 1. Up until this morning the Roseburg district has shipped 15 carloads of wheat which graded No. 1.

Largest Western Port

Vancouver.—According to figures obtained by Canadian Pacific Steamships, Limited, the Port of Vancouver now ranks first among the ports of the Pacific coast. Outshipping San Francisco and Los Angeles in volume of inward and outward traffic and tonnage of exports and imports with a total of 9,899,787 tons of food imported into and exported from Vancouver in 1928, it surpasses all competitors, the nearest in line being Seattle.

Fanatics Behind Bars

Vancouver, B.C.—Chanting the weird Russian songs of their religion, 104 men and women with seven children, members of the Sons of Freedom sect of the Doukhobors, were quietly detained at Escondido, near New Westminster, and taken in buses to Okalla jail, where they began to serve sentences of six months for indecent exposure imposed at Nelson, B.C. The Doukhobors were arrested at South Island, on August 29, after staging a nude parade.

Want Disarmament Conference

Geneva.—The League of Nations was called upon by the Irish Free State to convene a general disarmament conference of the powers. Patrick McGilligan, foreign minister of the Free State Government, made the proposal. He expressed regret that 11 years after the close of the great war so little had been done to remove the weapons of war.

Harry Saunders (left), engineer of the special Canadian Pacific Railway train that recently took E. W. Beattie, president of the railway, and several directors on a tour of the Maritime Provinces, and Charles Henderson, conductor on the train, represent between them just over a hundred years' service with the company. Mr. Henderson has put in 53 years of service, making him the dean of C.P.R. engineers; Mr. Saunders has a record of 48 years' railway service.

The 1930 McLAUGHLIN -BUICK

**Power that says
"follow the
leader" to any
car on the road**

Outstanding among the many improvements in the new McLaughlin-Buick is the marked increase in power provided by the new McLaughlin-Buick valve-in-head engine.

This great new engine develops 98 horsepower in the 124 and 132-inch Series, and 80½ horsepower in the 118-inch Series, thus assuring superabundant reserve for every motoring need.

This tremendous increase in power, together with innumerable refinements bearing on other phases of engine operation, not only endow the new McLaughlin-Buick with unrivaled acceleration, hill ability and speed, but impart marvelous new flexibility, and velvet smoothness at any pace, without any increase in fuel consumption.

See the new McLaughlin-Buick today! Compare the beauty of its new Bodies by Fisher. Test getaway, speed, power on hills, smoothness, flexibility! Then you, too, will acclaim McLaughlin-Buick the world's greatest motor car value.

NOTES AND COMMENTS

Superstition dies hard; with some people, never. A ladder used in painting the K. of P. hall was tilted across the sidewalk and the number of people who would walk around it rather than pass beneath was far greater than the daring souls who cast superstition to the winds.

A number of young lads, between the boy and man stage, are charged with breaking in and stealing, two serious offences. Naturally sympathy is expressed for the parents of lads who bring disgrace on themselves and cause heart-burnings to their parents. There is an age-old adage of sparing the rod and spoiling the child, and severe lessons are necessary when lads choose to travel the wrong path, some through wilfulness, others through bad influences. False sentiment is as bad as condoning offences. It has no remedial effect on the offenders, and is a bad example to others who may be hesitating between the paths they will choose when temptation crosses their path. The law cannot be treated with impunity; were it so we would be in a state of anarchy, and society at large would suffer. Like the child who has to be given a dose of medicine occasionally to keep him healthy, so must corrective measures be applied to offenders.

Unemployment and its consequent curtailment of business in the Crows Nest Pass is a recurring problem annually. It is reported that the aggregate tonnage shipped up till the present date this year from the district mines is as great or greater than in any previous year, yet the unemployment situation is far more acute. This week letters were received by D. Gillespie, local secretary of the union, from Hon. Peter Heenen, minister of labor, and G. G. Coote, M. P., suggesting a conference of mine owners, miners representatives, railway officials, and provincial government representatives, to try and arrange for coal to be shipped over a longer period in the year than by having it rushed out in from three to four months. This matter was discussed at the recent Calgary convention, and action will be taken towards this end.

The problem and its difficulties affect every business interest in the Pass towns. The miners, mine owners, retailers, all sink or swim and common action must be made by all interests affected to improve on the present system. Were the money paid out in wages to a large number of transient workers during the four months busy season spread out over a longer period, so that it would be earned by miners who have established homes here, who are paying taxes and doing business among the retailers, all lines of business would benefit, and the community as a whole would be in an improved financial position. The effort must be backed up by every business interest in the Crows Nest Pass towns. Action immediately is of prime importance, to bring about an improvement.

The smaller towns very quickly follow the lead of the cities. The movie picture industry is now undergoing a disturbed period, as a result of the advent of the "talkies." People from the country to the cities hear and see the talkies, and the small town theatre managers feel impelled to make the change from the silent pictures, even though there is a conflict of opinion among the people as to which they like the best. The towns in the Crows Nest Pass endeavor to "keep up with the Jones" and talkies are already installed at Bellevue, while the Palace in Coleman is negotiating for their installation. As soon as an industry becomes settled in its production and organization, a change or improvement is made which necessitates sweeping changes. It is the law of progress, nothing can remain as it is. And so now the small town theatre manager has his problems to grapple with in his effort to intelligently anticipate the public's likes and dislikes.

The man who takes a shot at a bird on the wing or the hunter who stalks his quarry through forest gives them a sporting chance, in contrast to those who use torturing steel traps. Last week in the Fernie Free Press an item appeared stating that a fine golden eagle had been found dead, its leg caught in a steel trap to which was attached a piece of wood, and that the bird had apparently flown till exhausted. Picture this noble bird, caught without a chance for its life, and you'll agree that the trap method of catching animals or birds is cruel indeed. Give them an even break, as all real sportsmen will.

There is little advantage in being rich when you can purchase almost anything you require on payment of a dollar down. The drawback is that most people cannot keep track of the dates the various instalments come due, or else the money does not come in fast enough to keep up with them.

SPEAKING OF YOU, SIR,

When you interview a respected patron, Mr. Business man, or a firm's representative you naturally endeavor to make a good impression. You are punctilious about your clothing and general appearance. Of course you are. It's good business.

Then why be satisfied when you correspond to allow a poor piece of paper, indifferently printed, represent you to the heads of the firms or to that same patron. After all the stationery is your "paper self" interviewing your business associates. Why not "keep it dressed" properly too?

The Journal Job department gives intelligent study to every piece of printing. The dress is "fitted" to the subject.

ESTABLISHED 1770

Advertising Must Be Maintained Steadily to Bring Best Results

To the business man who thinks the public does not need to be constantly reminded of who he is and what he has to sell the oft told story of Pyle's Pearlina will bear repeating.

In 1904 Pearlina, a cleaning material, was used by a large percentage of the housewives of the country, and the company spent \$500,000 in advertising that year. Later the advertising was curtailed, and about 1907 it was discontinued altogether, as the company thought the product was so well known that it did not require further advertising.

Sales fell off rapidly, but the

owners persisted in their non-advertising policy until 1915 when the whole concern, including good will, was sold for \$12,000. Pearlina was dead.

Many other products whose names were household words a few years ago are not heard of today, because they failed to keep up their advertising and consequently the public forgot them.

Business men must remember that new generations are coming along all the time, and these new buyers must be personally sold on a product or a store, as their fathers and mothers were sold before them. The only time it is safe to stop advertising is when one's ready to go out of business.

Read the advts It pays

Strapped for Stealing

Two strappings of ten strokes with a rubber strap, with a week's interval, and six months sentence was the penalty given a 16-year-old boy at Cranbrook by Magistrate Hamilton at Cranbrook, for breaking and entering and stealing articles from the Kandy Kitchen. The boy accepted this sentence instead of two years in the penitentiary.

Visiting in Old Mexico

A postcard received from Mr and Mrs J. C. Cox, from the Hotel Agua Caliente, Tijuana Hot Springs, Old Mexico, states: "We arrived here in Old Mexico to day; having a good time." They left here over a month ago by car, and have motored through California.

Here and There

(388)

"The greatest apple crop in the history of Nova Scotia," is the almost unanimous opinion expressed by prominent fruit growers and Government experts of the province. It is estimated the crop will reach 2,500,000 barrels, at least half a million barrels more than any other crop ever raised in Nova Scotia.

In preparation for the opening of the 1929 big game hunting season in New Brunswick, 25,000 hunting licenses have been sent out from the Department of Lands and Mines to 200 vendors in all parts of the province.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, accompanied by a group of directors of the company, is now on his annual tour of inspection of company's properties and conditions in the west. Resorts, agricultural centres, experimental farms, mines and smelting plants, as well as the system itself was inspected during the tour which started September 5 from Montreal and closes at Winnipeg October 2.

"I am watching with the greatest interest the progress being achieved in the United States where railways are experimenting in the use of aeroplanes as adjuncts to their railway services," said E. W. Beatty, chairman and president of the Canadian Pacific Railway, interviewed at Toronto recently. "There they are using planes by day in certain places and rail travel by night and the experiments are very interesting to me," the president added.

Two first prizes, three seconds, and a third award were won by the Canadian Pacific Railway supply farms championship Holstein herd from Strathmore, Alta., at the 60th annual provincial exhibition at New Westminster recently. This is a follow-up to the Vancouver Show where the herd led all others.

Up to the end of August, says Colonel J. S. Denais, chief commissioner of the railway's department of colonization and development, the Canadian Pacific brought to Canada 1792 boys for placement in agricultural employment under the distributive schemes of the company. "This is the largest number of British boys brought out to the Dominion by any one organization," says the Colonel.

Back from a month's wanderings along the line of the Dominion Atlantic Railway in Nova Scotia, Miss Juliette Gauthier de la Verendrye, noted folksong artist, stated that she had discovered 300 folksongs that were either quite unknown hitherto or else were interesting variants in melody and tune to similar songs in vogue among the French-Canadian habitants. She will sing some of them at forthcoming concerts.

During the first five months of the year 5,389 homesteads representing \$82,240 acres of land were taken out in Alberta, settlement being mainly in the Edmonton, Grande Prairie, Peace River and Prince Albert districts.

Accident in Harvest Field

Roy Stubbard, of Coleman, separator man on a threshing outfit at Foremost, met with a serious accident when he stepped through a board on top of the separator, his heel being caught in the cylinder. He was taken to Lethbridge hospital for treatment.

James Gray, for some time employed at McGillivray mine, left this week for Telkwa, B.C., 300 miles east of Prince Rupert, where

coal properties are to be developed by a British company with worldwide interests and headed by Lord Melchett. Mr. Gray has first class mining certificates for this province and also in England. The Coal Review states that the company will expend ten million dollars in development work.

World's Greatest Travel System

Dramatic Scenes Unfold in Maze of Spy Adventures

In one of the most spectacular automobile smash-ups ever filmed, a sequence in the UFA production, "Spies," a Metro Goldwyn Mayer release which will open at the Palace theatre, Friday, Sept. 20, Lang adds to the horror of the general situation by having the driver of the automobile head it into a revolving glass door.

This is but one of many unusual and thrilling incidents in this UFA spy melodrama, adapted from a novel by Theo von Harbou. Rudolph Klein Rogge, leading European character actor, and Willy Fritsch, have the leading male roles in the picture. Gerda Maurus, a European recruit from the music halls of Vienna, has the leading feminine part.

The Calgary Albertan infers that inside manipulation has caused the slump in the price of oil stocks in Calgary. Fluctuations are bound to occur, especially in oil stocks, and the man who buys at a fair price and invests in stocks of well managed companies usually gets a fair return on his investment. Too many are looking for quick returns on a small capital outlay, with the result that when the market says they cannot afford to hang on to what they have purchased. Gambling of any kind may make or break you, and more often it will break you.

Mothers! Have Your Child's Feet Fitted Properly By

THE NEW VISIBLE SYSTEM OF FITTING

(Patented 1929)

Exclusive With

Jack and Jill

Cushion Sole Shoes for Children

BY THIS Jack and Jill method of "Visible Fitting" there is no more guesswork; the child's foot can actually be seen in the shoe, and cramping of the little toes, that grow so quickly, avoided. Children thus fitted will not need arch supports and other appliances in later years. For never does a "Jack and Jill" Shoe bind growing bones or muscles. Firmly constructed yet flexible as a glove, they allow the feet to grow unhindered. Sturdy and strong to stand the wear and tear of active youngsters, yet priced very moderately.

Jack and Jill Shoes are Endorsed by Physicians Everywhere Bring in the Children and have them properly fitted by

WORLD HAPPENINGS
BRIEFLY TOLD

Hon. R. B. Bennett, leader of the Conservative opposition at Ottawa, was elected president of the Canadian Bar Association, succeeding the Hon. Wallace Nesbitt, K.C. of Toronto.

According to Assessment Commissioner Farley, the population of Toronto this year showed an increase of 26,742, as compared with 1928. The figures are: 1928, 606,370; 1929, 633,112.

Five thousand tons of anthracite from the Cosack River, Don Mining section, the first coal from Soviet Russia to be imported at Halifax, was loaded here from the British freighter, "Elizabethtown," which arrived from Murmansk, Russia.

Owing to the recent Canadian order against the importation of Scottish cattle British United Press understands that the Prince of Wales has been prevented from shipping to his Alberta ranch several recent purchases of pedigreed Ayrshire cattle.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Abitibi River, 90 miles north of Cochrane, Premier Ferguson announces.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. Dr. J. H. King informed the committee of the British Columbia Liberal Association at Vancouver.

The government crop report issued by the Dominion Bureau of Statistics estimated the wheat crop for all Canada at 253,792,000 bushels. The crop last year was 566,726,000 bushels, which was a record crop for this country. The wheat crop for the three prairie provinces is 269,471,000 bushels. Last year the prairies produced 544,598,000 bushels.

Death Dealing Toxin

Dreadful Possibilities Of Use In Warfare
The dreadful possibilities of a certain death dealing toxin in war time was mentioned by Professor Leonard Hill, in an address to the Sanitary Inspectors' Association, at Lowestoft, England.

Professor Hill called attention to "a certain bacilli which shall be nameless, but is easily cultivated. 'If men were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a salt spoonful of the dry toxin would suffice to kill a million persons.'

Prof. Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members "if men set out to prepare such a toxin and to scatter it by aeroplanes, what would be the use of the paucity of war."

Dear Frank

It is estimated that Eastern Canada's apple crop this year will be about 2,420,000 barrels, compared with 1,750,000 last year. Perhaps this fall it may be possible to buy two apples for five cents in a shop, instead of having to pay five or 10 cents, each for them. — Montreal Gazette.

If drivers would only get it into their heads that it is the reckless driver that we want instead of the reckless driver, all would be well on the King's highways.

Radium salt, worth \$500,000, would not fill a teaspoon.

A Severe Attack of
Dysentery
Checked by 4 Doses

Mr. I. Bartonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of 'Dr. Fowler's' handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont."

W. N. U. 1803

Infra-Red Rays

Can Be Used For Penetrating the Deepest Fog

Infra-red rays, the "invisible light" with which the camera peers far into impenetrable fog, now brings to view tiny, living objects that hitherto escaped detection by the microscope. Use of these rays in medical photography was described to the thirteenth International Physiological Congress at Harvard Medical School by Ivan Bertrand and L. Justin-Besancon, of Paris. Infra-red is a longer wave length than red, the most lengthy visible ray. It is an intervening step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is especially sensitized to the infra-red emanations. They said that because of the extra length these rays penetrate into and reveal some of the outer portions of living cells. They described photography in a kidney study that revealed organs "entirely missing in the microscopic examinations by the eye."

Passing Of a Pioneer

C. V. Alloway, Of Winnipeg, Dies After Lengthy Illness

Charles Valentine Alloway, pioneer citizen of Winnipeg, who came west with the Wolsey expedition in 1871, to check the Riel Rebellion outbreak in Manitoba and remained to become one of the city's best known residents, died recently in Winnipeg following a lengthy illness. Mr. Alloway had travelled extensively through northern sections of the west and at one time was within sixty miles of the Arctic circle. He was one of the earlier visitors to Churchill, Man., and several years ago predicted that the Peace River district, in Alberta, would see heavy farm settlement.

Born in Ireland, Mr. Alloway came to Canada with his parents in infancy. He lived at Hamilton, Ont., from 1855 to 1871.

Winnipeg Newspaper Union

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf". From the pen of Angel Guimeras, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours. He takes the part of Manelich, a shepherd of the mountains. Who play has been translated into twenty languages, and so powerful an appeal has been made by Manelich to the Spanish people, that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time this epochal Spanish play has been seen here, and it should prove one of the most popular in which Sir John has ever appeared. For his present tour he has engaged a splendid company, and if it should be a farewell visit it will be one long remembered.

SMART COTTON FROCK

Of course you'll want several cool comfortable frocks for town, travel or office. Here is one that is adorable. It is made of inexpensive cotton voile in smart capeline tones with the novel closing vestee in plain white voile, which gives a striking contrast. The surprise bodice has inverted tucks to narrow the shoulders. The skirt is pressed into plaits at either side of front. The hips are decidedly slender. Style No. 588 comes in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust. Purple ader crepe de chine with white crepe, yellow tulle silk with white, printed crepe de chine with plain blending tone, printed lawn, and georgette crepe in navy blue are attractive. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The most representative health exhibit ever shown in Canada was a recent feature of the Canadian National Exhibition, when the Ontario Government provided space in its excellent show for leading voluntary health societies. Above is shown the Canadian Social Hygiene Council booth designed by Dr. C. P. Fenwick, of Toronto. Other agencies given space by the government were the St. John Ambulance Association, Victorian Order of Nurses, Child Welfare Council and the Red Cross.

Visit Of Sir John Martin-Harvey

Again Coming To Canada With Three Well-Chosen Plays

Who will ever take the place Sir John Martin-Harvey has won for himself in his many visits to Canada? The thought arises from his announcement that on this tour, during which he will be seen at The Grand Theatre, Regina, on November 4, 5 and 6, he will make his farewell appearance as Sidney Carton in "The Only Way." In this role, in this splendid drama, Sir John has built up through many years a reputation which is probably unique in stage history. To the confirmed theatregoer the final speech of this ne'er-do-well character is probably as well known as the soliloquies of Hamlet, and all because Sir John brought his great ability to a part that could be less than mediocre in the hands of an actor of ordinary rank and merit. It is truly to be regretted that Sir John has decided to end Sidney Carton, for end it is, as there is unlikely to be anyone in this generation who will revive the role to the satisfaction of those who have seen the greatest of Sidney Cartons.

Sir John has made another of his surprising moves in adding for this tour "Rosemary" to his repertoire. This rare piece is a romantic drama of 1837, that makes an appeal to everyone. It is the story of the wholesome love of Sir Jasper Thorn-dyke, 40, for a young girl, It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John Martin-Harvey is seen at his best.

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf". From the pen of Angel Guimeras, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours. He takes the part of Manelich, a shepherd of the mountains. Who play has been translated into twenty languages, and so powerful an appeal has been made by Manelich to the Spanish people, that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time this epochal Spanish play has been seen here, and it should prove one of the most popular in which Sir John has ever appeared. For his present tour he has engaged a splendid company, and if it should be a farewell visit it will be one long remembered.

Forest Fire Fighting Methods

Specially Designed Apparatus Found To Be Of Great Help

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a forceful stream of water through half a mile of hoses. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness, at the very time when his work will have the greatest effect.

Impatient Customer: Well, waiter, I suppose I can sit here until I starve?

Waiter: Sorry, no sir. We close at eleven.

There are about 25,000 Mohammedans on the North America continent.

Willenden Magistrate: What is his occupation?

Witness: A married man living apart from his wife.

Recipes For This Week

(By Betty Barclay)

PRUNE JAM

2 cups prunes.
4 oranges.
1 cup sugar.
½ cup water.

Wash prunes and cut pulp from pits. Put pulp through a food chopper. Peel oranges and cut in small pieces. Cut rind of two oranges into small pieces. Mix all together, add sugar and water, cook slowly until thick. Turn into sterilized glasses and when cool cover with paraffin.

JELLIED CARROTS AND PEAS

1 package lemon flavored gelatin.
1 cup boiling water.
¾ cup vegetable stock or color water.
3 tablespoons vinegar.
1½ teaspoon salt.
1½ teaspoon paprika.
1 cup cooked carrots, diced.
1 cup peas.

Dissolve gelatin in boiling water. Add vegetable stock or cold water, vinegar, salt and paprika. Chill. When slightly thickened, fold in carrots and peas. Turn into molds. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

Southern Alberta Irrigation
In southern Alberta there are now ten large irrigation projects in operation comprising an area of slightly more than one million acres susceptible of irrigation from the 5,500 miles of canals and ditches already constructed.

Every two years a whale travels about 25,000 miles — the distance around the world — fish experts say.

Over 100 different languages are spoken in India.

Want To Go To Church

Government Building, Because At Present From People Who Have Heard The Call Of The North

The lure of the north is strong in the hearts of Canadians. Anyone doubting this should see the correspondence pouring in on the Department of Railways and Canals, asking to be allowed to go to Churchill. The flood of requests started when a news item announced that it might be possible trains would be running into that port by the end of the month.

It is rather embarrassing to the department, because at the present time the only buildings at Churchill are those to house the men engaged on the dredging and the railway construction. The only food supplies there are those belonging to the government.

Hon. C. A. Dunning, minister of railways, announced that his department was preparing a statement which will be published soon explaining the whole situation there.

Winter Fair Building

\$100,000 Winter Fair Building To Be Erected At Saskatoon

Plans for the \$100,000 winter fair building to be erected at the Exhibition grounds at Saskatoon, were approved by the building committee, and tenders will be called for immediately. The cost of the structure is being taken care of jointly by the provincial and federal departments of agriculture and the city.

The building, which will compare favorably with any of its kind in the west, will be 200 feet by 180 feet, and the front elevation 42 feet. The sides of the main arena will seat 4,000 people, and the central portion, which can be pressed into service for conventions, will hold an additional 3,000.

MALACHI FORETELLS A NEW DAY

Golden Text: "Behold, I send my messenger, and he shall prepare the way before Me."—Malachi 3:1.
Lesson: Malachi 1:1 to 4:6.
Devotional Reading: Isaiah 11:1-10.

Explanations and Comments

The Coming Of The Lord In Judgment, verses 1-6, in this grand verse the prophet represents the people of Judah as complaining that the wicked priests of the temple are not just in prospering them while they, the righteous, suffer. "Where is the God of Justice?" they ask. Now the prophet represents God as replying to them and encouraging them with a message of hope. "Behold, I send my messenger." The word "Malachi" means "my messenger"; it has probably become the title of the book because of its use here in this verse. "He will prepare the way before Me." Recall our lesson from Isaiah 40, whence this statement is thought to be borrowed. Zechariah (8:3), had promised that Jehovah would come to His temple, and our prophet assures the people that He, the messenger of the covenant, was in part of its covered in this verse. "With His people, will suddenly come."

"The birth of Jesus is the sunrise of the Bible. Towards this point the aspirations of the prophets and the poems of the psalmists were directed as the heads of flowers are turned towards the dawn. From this point a new day began to flow silently over the world,—a day of faith and freedom, a day of hope and joy. When we remember the high meaning that has come into human life and the clear light that has flooded south down from the manger-cradle in Bethlehem of Judea, we do not wonder that mankind has learned to reckon history from the birth of Jesus, and to date all events by the years towards the Nativity of Christ."—J. B. Vandyke.

"How wonderful the history of Israel—victor with God! First a band of westward emigrants, then a horde of escaped slaves, then a host of conquering warriors out of the desert, then crushed and ground into captivity; then, after seventy years, to return with songs and outbursts of joy and praise. Then, crushed and ground under Rome's world empire, and scattered as dust to the four winds of heaven, the Hebrew people. And yet Israel's gift to the world is unique, deathless, the Savior of the world. The moral law, the eternal word, the Teacher of nations, the Savior of the world, the moral law and inspiration, the Word of God which liveth and abideth forever."—William Elliot Griffis.

Ned: "I don't know of a single girl I'd like to marry."
Freddy: "Same as me; they're all tied up to some chump."

WINDOLITE

MADE IN ENGLAND

The Improved
Glass Substitute

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

The Most Beautiful BLACK you have ever seen

THE most beautiful black you've ever seen! "All my friends admire my new black dress," said I thought was hopelessly spotted. It is now a new, beautiful black! These are typical comments from women who have used these true, jet black dyes.

Diamond Dyes Black never gives cloth a greenish or bronzy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results because it is rich in pure anilines. It is the anilines in dyes that give them brilliance, depth and fastness; make them go on smoothly and evenly, without

streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. The white package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or stain silk, wool, cotton, linen, rayon, or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dye silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes contain the highest quality anilines that money can buy. And it is the anilines in dyes that give them brilliance and fastness. The source of their rich color, brilliancy and permanence.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

Al Stone, the singing waiter and song writer at Elmer's New York night club, is discovered by Marcus, the famous Broadway revue producer. Al insists on helping Molly the ballad singer at Blackie's, because he loves her. Molly marries him, not loving him and he pulls her up the ladder of fame. Meanwhile, Grace, the cigarette girl at Blackie's, who loved Al without his knowing it, is left behind. Molly has a baby. After her return to the stage her romantic interest, while Al's best friend, is revived. Al becomes part owner and master of ceremonies at the fashionable club. On the third anniversary of their marriage he slips a jewel case under a napkin on her reserved table. Molly is in her limousine with John Perry on the way to the club. He pleads with her to throw over Al for him and suddenly kisses her.

CHAPTER XIII.
"Bringing over with affection," greeted Molly as she entered the Bumbo Club. Then he turned to Perry and said wholeheartedly: "Awfully good of you, old man, to take care of Molly while I'm working."

Perry had turned away to see if any vestiges of Molly's face powder still remained on his face. Satisfied that he was safe, he turned his coat, hat and stick over to a check girl and acknowledged Al's thanks with an appearance of sincere cordiality. They passed into the main dining room, Al leading the way. As they moved toward the reserved table, bewildering and contrasting thoughts flickered through Molly's mind. What a strange whirlpool of emotions had sucked her down! She felt the light, carefree king that Al had given her in greeting still on her lips, but behind it, and much more intense, was the recollection of John Perry's embrace.

Now Molly and John Perry were seated at the table, while Al remained standing, watching his wife with intense curiosity. Why did he do that, she thought. Did he suspect something?

Al was waiting for her to lift her napkin. When she leaned back in her chair and made no move to do it he pantomimed definitely for her to look under the tiny square. Molly raised the napkin, saw the jewel case and card, and gave a cry of delight. "Oh Al, this is wonderful of you!" With eyes sparkling she tenderly

lifted from the padded silken interior of the box a magnificent diamond brooch. She drew it close, held it at arm's length, studied it carefully—while Al's face was radiant at her expression of delight. Then she passed it to Perry for inspection.

A moment later she was pinning the expensive brooch to her dress, while Al turned and drew the attention of the crowd toward him. "Folks," he said, "we have with us tonight none other than Molly Winston, the celebrated stars of the 'Merry-Go-Rounders.'"

Then, with a graceful gesture, he indicated Molly's Roudine applause was the answer of the crowd—a tribute to the girl's popularity. But Al raised his hand.

"Wait, folks!" he cried. "You ain't heard nothin' yet."

He seized Molly's hand and pulled her reluctantly to her feet. While she stood smiling and bowing to the audience he continued: "And for the benefit of those of you who don't know it already, I want to say that Miss Winston is in private life, my wife! Tonight we are celebrating the third anniversary of our marriage and I want you all to congratulate us and be happy with us."

With that, Al suddenly slipped his arms about Molly, drew her close and kissed her. The roar of applause was deafening, twice the volume Molly received by herself. As she stood, with Al's arm around her waist, bowing again and again, there were insistent cries from the crowd that she give them a song. Molly nodded assent.

Will you sing for them, honey?" whispered Al. "Yes, I don't mind."

Al tucked his arm comfortably under Molly's and led her toward the orchestra platform. The crowd waited silently, giving her every attention. At the table she had left, John Perry sat with his elbow on the table and his chin in his cupped hand, staring after her retreating figure. A vague smile played across his features. When the song was finished and Molly returned, Perry rose and said:

"You was spie!-d! Molly! I never heard you in better voice. You held them in the hollow of your hand."

"Thank you, John," said Molly quickly, but with pretended indifference. Then she turned to Al: "You sit down and wait with us a while. Must you always be circulating among the customers?"

"I'll be back in a moment," whispered Al. "You know I want to be with you every moment I can. But, after all, I'm master of ceremonies."

times its volume in it. It is harmless and tastes good and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now."

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acidity. Each bottle contains full directions—any drugstore.

Molly shrugged her shoulders as he moved off. She had made her play for him to stay, but she was pleased he had gone off. Now she could talk to John.

"And you say you need him?" came Perry's whispered exclamation across the table.

"What do you mean?"

"Well, you heard the applause you got. You don't need him at all."

"Sh!" Molly drummed on the table-top without further words. The pink, polished nails of her white, be-ringed fingers went up and, down with incredible rapidity. Too many rings on those slim fingers, too many glittering gems to be in the best of taste! How stridently they proclaimed her wealth and success! Molly glanced down at the brooch Al had just given her, as it reposed against the satin bodice of her gown. A few days before she had mentioned casually that she wanted a new brooch. Now—presto!—it was hers! But now, a few moments after Al had given it to her, it became just another costly ornament to add to her rich collection; the significance of the gift was lost on her.

A half hour passed, and Al returned to the table. Another half hour, and John Perry rose to go. "Thank you," John answered. "He was the one who thought of caution; he wished she wouldn't show her feelings so plainly before Al."

"Why?" she insisted. "I thought you'd run home with us for a while."

"Well, it's late for one thing. Besides, Molly, this is your anniversary. I know you and Al want some time alone together."

Perry spoke with the utmost gravity, but Molly thought she detected a sardonic gleam in his alert eyes. He was making fun of Al and of her, too! For a moment she hated him for it. . . . But a moment later, when Perry had gone, she hated Al for creating the situation. Her thoughts, which had been bewildered, turned bitter. Anniversary indeed!

The Rolls-Royce sped rapidly toward home, with Molly keeping silent the whole way. Al, believed she was tired, remained numb, too, out of deference to her mood. When they entered the reception hall of the apartment Molly curiously dismissed the maid and Al rushed off to the nursery, to see if Junior was sleeping.

The eyes of the young song-writer were up with love for his baby son as he tip-toed across the nursery floor and surveyed the child, tucked safely away in bed. What a lovely picture Junior made, his mass of curls framing his delicate young face, his toy woolly dog nestled beside him on the pillow.

As Molly entered she was struck by the scene. The expression on Al's face told more plainly than words his complete love and utter devotion to Junior. For a moment she remembered her behaviour of the evening and a throb of misgiving shot through her. She was unworthy and she couldn't hide it from herself. Only a great, unselfish love could give Al's face that expression of radiance it held now. She knew she could not achieve such a love and, suddenly, the realization brought a surge of furious anger within her!

(To Be Continued.)

Migrating Birds

Long Flights By Birds Are Revealed By Leg Banding

Migrating birds have been demonstrated as flight variants by the United States Bureau of Biological Survey, which directs the work of 1,400 amateur ornithologists; the latter specialize in leg-banding. While the average feathered traveler maintains approximately uniform speed and range, now and then a Lindeberg of the species breaks records. In three months a leg-banded Arctic tern flew from Red Island, Labrador to Natal, South Africa—which, in a straight line, would be 10,000 miles. A robin winged from Crystal Bay, Minn., to Pachuca, Mexico (2,100 miles), in eighteen months.

Fallacies About the Moon

When Not Visible Kaffirs Say It Has Headache

The Dakota Indians think that the moon at waxing is eaten by mice. The Polynesians believe it is devoured by the spirits of the dead. The Kaffirs say that it wanes when, suffering from a headache, it puts its hand to its forehead and hides the latter from our view. The Eskimos imagine that the moon, harassed by fatigue, retires for a moment to take a rest and food.

They're Sated!

Many applications are received by the Saskatchewan Bureau of Publications for travelling libraries, which are supplied to rural districts. The library consists of a stout wooden box about 10 inches deep and two feet square, which holds from 40 to 500 books. When the necessary application form has been filled in and forwarded to the department, usually by some responsible citizen on behalf of a community organization, a library is sent by express charges paid. When all the books have been read by the residents of the district the library is returned. The Government pays the charges one way, and the readers pay the return charges. At the present time there are 62,900 books available and 1,250 travelling libraries are in circulation.

A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come, to suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets, the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and banish constipation and indigestion; break up colds and simple fevers and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fortune-Teller: You will suffer poverty until you are thirty-five years old.

"And then?"

"By then you will have got used to it."

Dibble: "Did your firm fail to pay its debts?"

Biggs: "No; it failed so that it wouldn't have to pay them."

—with Milk, Soup, Cheese, Salads—when a light and flaky salted soda cracker is preferred.

International Amputation Club

Organization To Unite Under One Banner Proposed In St. Paul
Thousands of Canadian and United States soldiers who lost arms or legs on the battle fields of France, began through representatives at the veterans of foreign wars annual convention in St. Paul, Minnesota, to form an international "Amputation" Club.

Robert Burns, of Winnipeg, who lost his right arm in the world war, and who is the head of a Canadian "amputee" club of more than 1,000 members, declared that such an organization "might prevent the world from forgetting us."

"We want every Canadian, American, English, French and other allied soldier who lost an arm, leg or eye over there to unite under one banner," Burns said, "and join in the fight now, so we won't be forgotten."

Little Helps For This Week

"In Thy presence is fulness of joy." Psalm xlv. 11.

O friend of sorrow 't is well with me When'er Thy love my spirit cheers From sorrow's dungeon forth I flee, And hide me in Thy sheltering arms.

The night of weeping flies away Before the heart-reviving ray Of love that beams from out Thy breast: Here is my heaven on earth begun: Who were not joyful had I not In Thee, O God, my joy and rest. —Wolfgang Riederer.

We can even here be with God, so long as we bear God within us. We should be able to see without sadness our most holy wishes fade away like sun-flowers, because the sun above us still forever beams, eternally makes new and cares for all. And we must not so much prepare for eternity as plant eternity in our hearts—eternity serene and pure, full of depth, full of light and all else.—Jean Paul Richter.

Anglo-American Comity

Close Co-Operation Of Britain With America Is Desired

The hesitancy of Prime Minister MacDonald to turn too suddenly from a European outlook to one involving the closest co-operation with America is understandable. But his well-known conviction that British foreign policy should be based firmly upon Anglo-American comity means an ultimate and definite trend in this direction. If the British Empire and the United States are to become the arbiters of world peace, they must put themselves in a position to dictate the basis of that peace.—Philadelphia Ledger.

Education For Labor

Inauguration Of Workers' Educational Classes Is Advocated In Manitoba

Inauguration of workers educational classes on lines similar to those which he had been flourishing in Great Britain, Australia, New Zealand and South Africa, was urged by R. J. Hall, of Swansea, Wales, at a conference with prominent Manitoba educationalists, labor leaders, and government officials held at Winnipeg, Mr. Hall is a promoter of the scheme in the old country.

Hon. R. A. Hoey, provincial minister of education, thought it possible his government might be interested.

Proposed Nicaragua Canal

The fate of the proposed Nicaragua Canal, stretching 153 miles through tropical mountains and forests from the Atlantic to the Pacific ocean, will depend on reports from a battalion of 400 engineers who were recently ordered to duty in the central American jungles to survey the route of the \$1,000,000,000 canal.

Use Of Radium

Complete Potency Of Radium As a Cure For Cancer Not Substantiated

Warnings against undue optimism were sounded at the sixth annual meeting of the British Empire Cancer Campaign, presided over by the Duke of York. Sir Thomas Horder, physician in ordinary to the Prince of Wales, and physician to St. Bartholomew's Hospital, in presenting the annual report, said that the launching of the National Radium Fund might create in the minds of many people an unfounded belief in the complete potency of radium as a cure for cancer. Such a belief might have very unfortunate results for the patient if carried into practice in any case in which the growth was completely removable by operation. In the course of time radium might come to equal or even exceed operative measures in efficiency. At present, however, it was the bounded duty of the doctor, in very many cases, in his patient's interest, to overrule his sympathy to surgical measures. All the same, the number of cases to which radium was applicable and the number in which brilliant results were achieved increased every year. But Sir Thomas added that it was open to considerable doubt as to how many of the institutions that were advertising for money to purchase radium had upon their staffs men or women qualified to use it. It might even be necessary to employ some of the money collected in providing for such training in the use of a powerful but dangerous remedy.—Toronto Mail and Empire.

A Mixed Population

Brooklyn, N.Y., with a population of more than 2,300,000 has residents from every country of Europe and South America, as well as from most parts of the other continents.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and as certain and satisfactory in its action.

There's just three things that I have never seen, an undertaker's funeral, a colored woman driving a car, and a parrot that could really talk.

An essayist has discovered that: corns live on three hundred pounds a year; but he omits to say two what.

I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I felt unsafe to use, and as certain and satisfactory in its action.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I felt unsafe to use, and as certain and satisfactory in its action."

Elwyn Bouquet, 132 Alma Street, Moncton, New Brunswick.

Lydia E. Pinkham's Vegetable Compound

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

Personal and Local

The Rebekah lodge is holding a whist drive and dance on Friday evening.

Mrs. Barnes returned yesterday after spending the summer with friends in Manitoba.

Another vanishing American! The ice wagon—being frozen out by the electric refrigerator—Ex.

Strange to relate, scenery and air, two things which do not cost the hotel proprietor anything, are among his main revenue bringers—Ex.

Tom Whittingham, formerly editor of the Kimberley Press, and now at Vulcan, Alta., visited Pastors last week, in company with Mr. Nutz, of Vulcan.

Mr. Gentile has taken a holiday from his shoe repair shop, and with his son Brunie, and Andy Montal betti and wife, went to Creston with Frank Gelli to see what wonderful fruit trees grow on his ranch.

Mr and Mrs. H. C. Pearson with their daughter Betty, of Chapman Camp, B. C., former Colemanites, spent a few days visiting their many friends here. Mr and Mrs. Pearson motored through, having spent a nice holiday at Banff, Calgary and other points. They speak very highly of Kimberley and the progress being made.

W. N. Donaldson, at one time in the tailoring business in Coleman, and now conducting a business at Kimberley, was in town on Saturday, and with some friends was going to the prairies to be in readiness for the opening of the shooting season. He renewed acquaintances with a number of old friends here.

Steve Leosky sailed last Friday from New York to France on the world's largest ship, the "Majestic." Its length would reach from the opera house to the Empire hotel, it is 34 feet wider than Main street, and more than twice as deep from bridge to keel as the Grand Union hotel. It has 48 boilers, 240 furnaces and develops 100,000 h.p.

Anderson and McLean, Sight Specialists, of Calgary, wish to announce a regular monthly visit to Coleman at G. R. Powell's office. Carrying a complete line of scientific instruments, an optical service equal to that of the city will be brought to you. Date of first visit will be Thursday, October 3rd. Visiting Optometrist, Mr. Melville Anderson. Make appointments at the office.

Just a word about the boys who deliver The Journal each week. Their names are George Vincent, Tom Brennan and Matt Brennan. They deliver the paper every Thursday afternoon, and the first two have been on the job without a week's intermission for over two years, while the third is a later recruit to the ranks. In the past two years they have steadily increased their sales, and in addition to The Journal, they are taking orders for MacLean's Magazine, a 100 per cent. Canadian publication which should be purchased by every home. It contains much of interest about Canada.

MacLean's Magazine
Twice a month—24 issues a year.
\$2.00 for 1 year
\$5.00 for 3 years

In 1927-8 the editorial plans for MacLean's includes the printing of five booklength novels, four novelettes, 108 short stories, 215 major articles of Canadian National interest.

In short, approximately, 355 main features. Approximately 308, that is to say, 92 per cent. of the editorial contents of MacLean's Magazine it is estimated will be contributed by Canadians.

This is a big buy for only \$2.00 for one year.

Auto Fatality

(Continued from Page One)
Allin was wedged in the car, and was extricated by her husband. She complained of her back being broken and of numbness. Immediately other cars were on the scene, and T. Flynn of Coleman rendered first aid.

Medical aid was summoned from Bellevue, and the injured lady moved to hospital, Mr. T. Bowen of Coleman remaining with the car, as he was driving a short distance behind with his family and Mr. and Mrs. Flynn when the accident occurred.

Mrs. Allin's death occurred on Monday and the body was taken back to Vancouver by the sorrowing husband and daughter on Tuesday. She was 54 years of age, and it is reported that quite recently they had lost a son by death, and were taking a holiday for the benefit of Mrs. Allin's health.

REWARD

I will pay \$50.00 reward for the return of 2 sets of Photo Lens that disappeared from my office several years ago. I am anxious to get these lens back and I am willing to pay the reward and ask no questions if they are returned.

Alex M. Morrison.
